Something About Sidney.
SIDNEY, Ill., Oct. 2.—One of the newspapers, Geo. Garrison, of the Herald, passed on the war path because his annual pass on the war path had been taken from him. It is claimed that the cause of taking up the pass was that he had loaned it to other parties to ride on. Garrison now offers \$100 reward for anyone who will make affidavit to that statement, which he declares to be without foundation. He asserts the cause to be that he had the manhood to express his opinion, honestly and fearlessly, and that his opinion as thus expressed came in antagonism with the Chicago, Burlington & Quincy railway policy, and the local agent, A. B. West, caused the pass to be taken up.

The funeral of John W. Walker was a sad event here, and the tragic details of his death still form a theme of talk. He was only twenty years of age, and was in the employ of a firm at Culbertson, Neb. He seemed despondent and homesick, but nothing very strange was thought about his mental condition, until he was found lying dead at the rear of the store, shot through the head. His revolver lay near him, and the presumption is that he killed himself. He was a young man of excellent traits, and had many friends here and in his new home at Culbertson.

Grand Opening To-night And to-morrow Evening at Eismann's People's Store, from 7 to 10 o'clock To 10:30 o'clock each evening.

Among the Churches.
At the Congregational church yesterday morning Rev. Mr. Crofts, the pastor, preached an excellent sermon on "Christian Manhood." One of the pleasing features of the musical part of the service was a solo by Miss Eno, of Newark, N. J., a young lady who formerly lived here and who is on a brief visit to friends here. She is a member of one of the leading church choirs in Newark and has a voice of rare sweetness and power, as well as cultured. In the evening the pulpit was occupied by Rev. Dr. Alvey, of Connecticut, a divine who has come west to attend the meeting of the American board at Des Moines.

The Baptist church was very pleasantly decorated yesterday with the fruit of the earth, for a harvest home service. There were a few flowers, vegetables, the ripened corn, all arrayed with rare taste. The pastor, Rev. Dr. Crofts, was unexpectedly called away, and could not attend the service, as he expected yesterday morning.

In the evening there was a Sunday school service, the programme being varied and very interesting.

At St. Paul's Episcopal church yesterday morning, Rev. John Fulton, D. D., of St. Louis, preached. He is one of the strongest men in the church, and the rare opportunity of hearing him was much appreciated. He spoke of the high expectations of those who occupied the pews.

The pulpit of Broadway Methodist church was also occupied by a visitor yesterday morning, Rev. Henry Coker, of Kansas.

The Finest Will Be Shown.
Probably ninety-nine out of every hundred persons who enter the People's store are not aware of the fact that the most expensive, most delicate, and finest quality of goods carried by this renowned house are never spread before the public gaze except at their openings. These goods are too delicate to be always on exhibition, and can only be seen displayed at the opening.

Who Was Shot?
A mysterious shooting affair is reported as having taken place on South First street at a late hour of night, when two honest folks are supposed to be in most haste. One shot was heard, and two men hurriedly ran down the street. One of the residents in that vicinity, awakened by the noise of running feet, jumped up, and, going to the window, saw two men stop under the lamp light, and heard one say to the other, "Wait a minute; I've been shot." "Where are you hit?" asked the other. "In the leg here, somewhere," was the reply, and the man making the last remark was seen to be making an examination of the wound. The watcher from the window was so curious to know what the trouble was that he went out to the men. "Are you hurt much?" This unexpected query reaching their ears the two men gathered themselves up and started on the run again, soon getting out of sight and hearing. Who they were, what they were doing and how the man got a bullet in his leg are still unexplained. There was a report started that the two men were climbing over a fence in that vicinity, when the revolver in the pocket of one of the men caught and was fired accidentally, but how this report started is as much a mystery as the shot and the other incidents. The whole affair promises to come out soon, as it can hardly be kept a secret from the vigilant officers who are hunting up its details.

J. Ernstorf, having taken entire control of the Phoenix club house, desires to state that he has secured the services of Charles Decker, a first-class caddy of New York city. The best the market affords, night and day, in the best style of fare. Will also have a regular bill of fare.

No money needed when you attend Eismann's opening Monday and Tuesday evenings. Admission to the grand opening free. No goods sold on either evening.

To-Day's Election.
To-day the city is to select a mayor for the unexpired term of the late Mayor Chapman. The question to be decided by the voters is as to whether Mr. Evans, who has been serving as mayor, shall be duly elected by the people, or whether Mr. Gonsweig shall succeed him. It is a question which, when presented to the individual voter, will be decided largely according to the individual voter's personal preference. There is no strong party fight being made, and no personal warfare waged against either candidate. All concede that both are good men, and there is no question but that the city's interest will be handled wisely and safely in the hands of either. While there seems no good reason for a change, still if the people desire to make such a change, no one will worry over any calamity to be brought upon the city by such a change.

Mr. Evans has shown what manner of mayor he moves, and there is no reason to doubt that his friends and his party will stand by him quietly but surely. Mr. Gonsweig's long and successful business career, his reputation as a citizen, his ability and honesty, will make him a strong candidate for the position, and no walkway is to be looked for. In justice to Mr. Gonsweig it should be said that the intimations thrown out by some of Mr. Evans' over-enthusiastic friends that he will be overthrown by a clique, if elected, is not the claim of the majority of Mr. Evans' supporters. Those who know Mr. Gonsweig well know that he is not a man who will yield his sense of right to the detraction of any clique or combination. He will be as free and independent as Mr. Evans. On the other hand it is not just to claim that Mr. Gonsweig is a man who is independent, or would be, than the present acting mayor. In fact there seem no points in which Mr. Gonsweig's friends are justly claiming an advantage over him, and the friends and supporters of Mayor Evans cannot see yet any reason for asking him to step down, even to give place to as good a man as the one who is in the race against him.

Night School.
Western Iowa College will be open Monday, Wednesday and Friday evenings, commencing October 4 and continue till April 1.
Students may pursue any branches desired.

Dr. Hatton Still in the Field.
Last evening a representative of the Bee met Dr. J. B. Hatton, the green-backed and knight of labor candidate for congress in the corridor of the Ogden house.

The Bee man, after receiving an introduction to the doctor by Colonel Sapp, sat down and had a pleasant little chat, during which he said that this was a very quiet campaign. "In my fifteen years on the stump I have never witnessed such a lack of enthusiasm as now," said Dr. Hatton. "Both of our candidates, Colonel Keatley and Major Lyman, are very quiet. Of course I don't expect a large vote in this city. You folks here are all monopolists and I don't blame you. Your city is the center of many milk lines and in consequence you wish to uphold them. But I have visited every county in the district except Harrison county, and the people are getting their eyes opened in regard to these 'milk lines.' Their robes, rates, etc., are a matter of the utmost importance to the farmer and shipper; there are eighty-two shipping points in this district and your city does as much business as all city and county and of course your people of the Bluffs are satisfied with their present management. Council Bluffs is a power in the district, in fact, no outsider can be elected on election night. I have been doing some hard work and will continue until election. I go to Harrison county in the morning and to-morrow night will speak at Lehigh, Sioux, Mendamin, Wednesday at Missouri, and Thursday at Logan. If I had one half of the machinery that either of the other candidates have I could be elected in twenty minutes. There's only one paper in the district that I can look to for support. If either Lyman or Keatley is elected they can't help but bring tools of the railroads, as it is to the interests of your city, but time will come when our party will have little or no trouble in electing their candidates."

The dress goods department at Eismann's opening will show goods far superior to anything ever seen in this city.

Mrs. E. M. Gerald, wife of Engineer Gerald, of the Union Pacific, this city, has lost a great sufferer for many years, with what was supposed to be cancer of the throat. It was said that she was threatened with starvation. Her general health was completely broken down. She could only swallow liquid food, and even that she stomach could not digest or assimilate. Physicians of Council Bluffs and Omaha advised her for three years and said they had no hope. Dr. J. B. Harkness, of this city, was called. In four weeks time he cured her throat, and completely restored her general health.
